ok I got it.This film-on-a-film it's about a film on a film.
Sounds strange watching a McQueen short movie like this. Absolutely nonsense.
very well filmed
I don't get it.
good work filming the film. What did you film the film on?
my cell phone camera ;)
This is my film of the film... I was impressed by his film that I decided to film the film... :)
is this the film... or a film of the film?

This was staged in a tiny chapel in Venice. It was possibly the smallest chapel I have ever seen. The Altar and the two flanking walls had a video screen that fitted the original sculpture, so instead of a painting, there was a video. The effect was incredible.

I'll never understand Video Art.
«The self is an ocean without a shore. Gazing upon it has no beginning or no end, in this world and the next.»—Ibn Arabi (1165 to 1240)
Is it a bad trip??
Impressionnant! J'aurais aimé le voir en vrai!!
The actual work itself is so powerful, it's a shame that some online viewers can't appreciate the full force and strength of this piece.
